#### LIBRARY50FT

# Create a library catalog *without* typing in records!

It's easy as 1, 2, 3 with AutoCataloguing<sup>™</sup>

#### 1. Scan

Scan in the publisher's barcode on the book cover.

Works with any scanner, but for maximum convenience use our Portable Keychain Scanner. Only \$149

#### 2. Search

Use our AutoCataloguing software to search and retrieve the book record (MARC data) from the internet. Only \$95

1 IBRARYSOFT AutoCataloguing	
File Options Help	
Search Add to database Database Auto Fill	
Type or Scan ISBN (UPC/EAN) Barcode: 97842425235334	
Type or Scan Item Barcode:	

#### 3. Load

Load the book record into Librarysoft or any other library system. Even the images of the items covers are acquired automatically.

Save time, retrieve one record at a time or in small batches.

### LIBRARY50FT

## For high security sites!

#### **Use AutoCataloguing2**

Scan in the publisher's barcode on the book cover. Scan in the barcode number of the book. Works with any scanner.

#### 2. Search

Use AutoCataloguing2 to link directly from our servers. Only \$199 and leave the searching to us.

#### 3. Load

Load the book record into Librarysoft or any other library system.

Save time, retrieve one record at a time or in small batches.

Load missing information automatically

# Why handle the items again and scan when you can just use AutoFill.

Rather than re-scan all of your items simply run AutoFill to go through the data and retroactively the program will run through the data and acquire missing information even including the covers of the item.

Field	MARC Tag	<b>^</b>
LCCN	010a	Field: LCCN
ISBN	020a	0100
Location	020a	MARC Tag: 010a
