

# LiBRARYSOFTWeB Hosted

Its all about location

**There isn't any !**  
**Run your library from anywhere !**

**LiBRARYSOFTWeB** is the web based version of **LiBRARYSOFT** designed to run from a web browser across the internet.

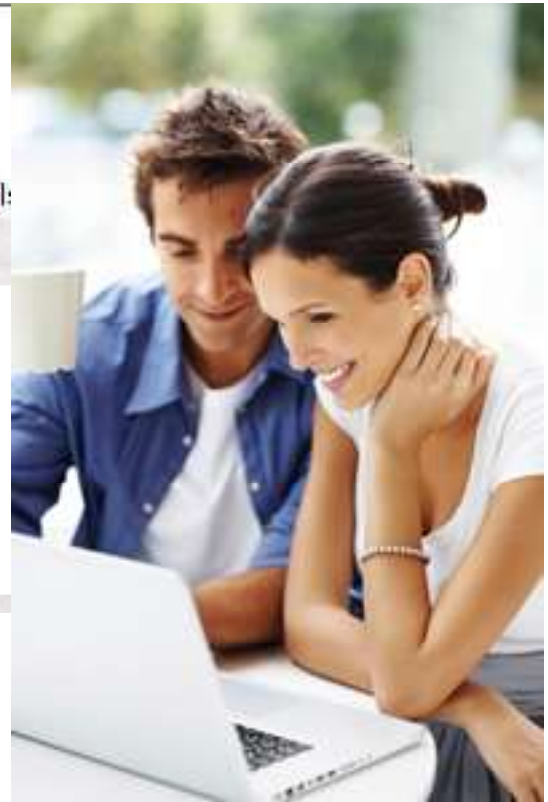

It enables groups of libraries to easily work on Windows, Macintosh, or Linux computers from a central database.

- ✓ LiBRARYSOFTWeB eliminates the need for IT staff to install and maintain the software at every library.
- ✓ Log in and use the product from anywhere.
- ✓ Volunteers and staff can work from home.
- ✓ Allow your patrons download pdfs, sound files and access websites directly.
- ✓ Catalog, Circulation, MARC, Serials, Scheduling, Bookings, Reports, Labels, OPACInternet/Intranet, Self-Circulation and Administration.
- ✓ Includes a copy of LiBRARYSOFT so you never have to depend on the Web.
- ✓ Includes a copy of AutoCataloguing to access any z39.50 site anytime.

***Automation from anywhere!***

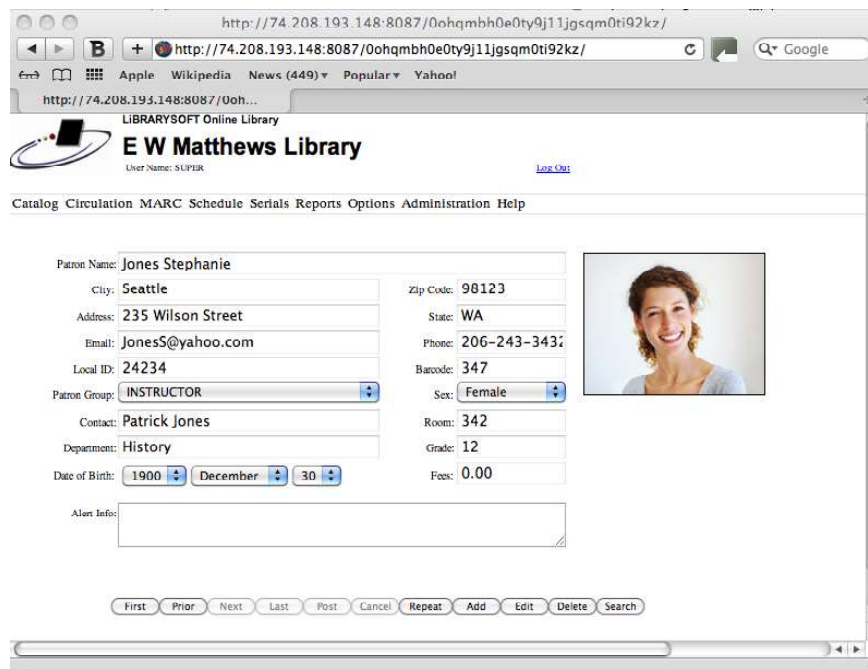

Versatility makes a difference

# LIBRARYSOFTweb

Work from a computer at home, in a classroom or at the office, anywhere with internet access. No installation required, just log in with your username and password.

**Runs on the web with Windows, Macintosh or Linux machines.**

Simultaneous cataloging and circulation from whatever number of connections your server can handle.

Use the External Checkout/In function to keep your library operating even if your internet connection goes down.

Use the Booking Module to reserve more than just books, such as rooms, AV material and buses.

*Work from Windows, Linux, or Macintosh!*

*Do more than you imagined !*

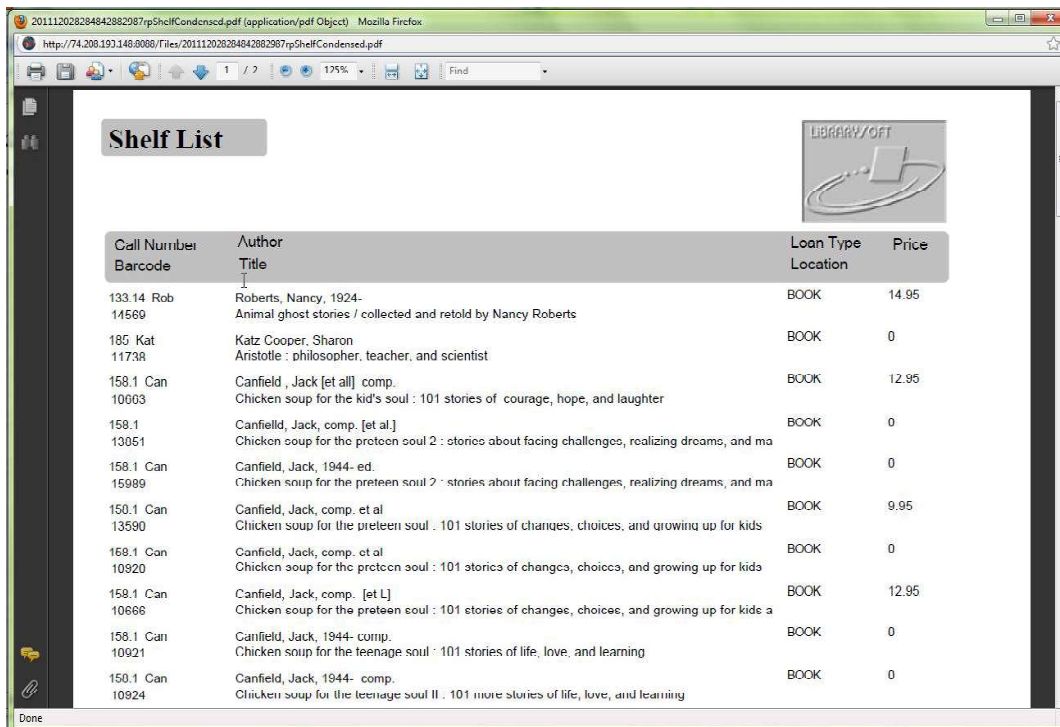

# LiBRARYSOFTWeB

LiBRARYSOFT Modules include Catalog, Circulation, MARC, Reports, Utilities, Serials, Scheduling and the new Booking Module for Resource libraries.

There is even a Self-Circulation Module for LiBRARYSOFTWeB

The Document management process even allows you to run reports of how frequently your items are searched, by who and how many pdfs (ebooks) are being downloaded.

Look at some of our innovative and unique solutions. Print/Email reports with Adobe Reader. Store even thousands of subjects and associated web links per record.

The screenshot shows a web browser window displaying a 'Shelf List' table. The table has the following columns: Call Number, Barcode, Author, Title, Loan Type, Location, and Price. The data rows are as follows:

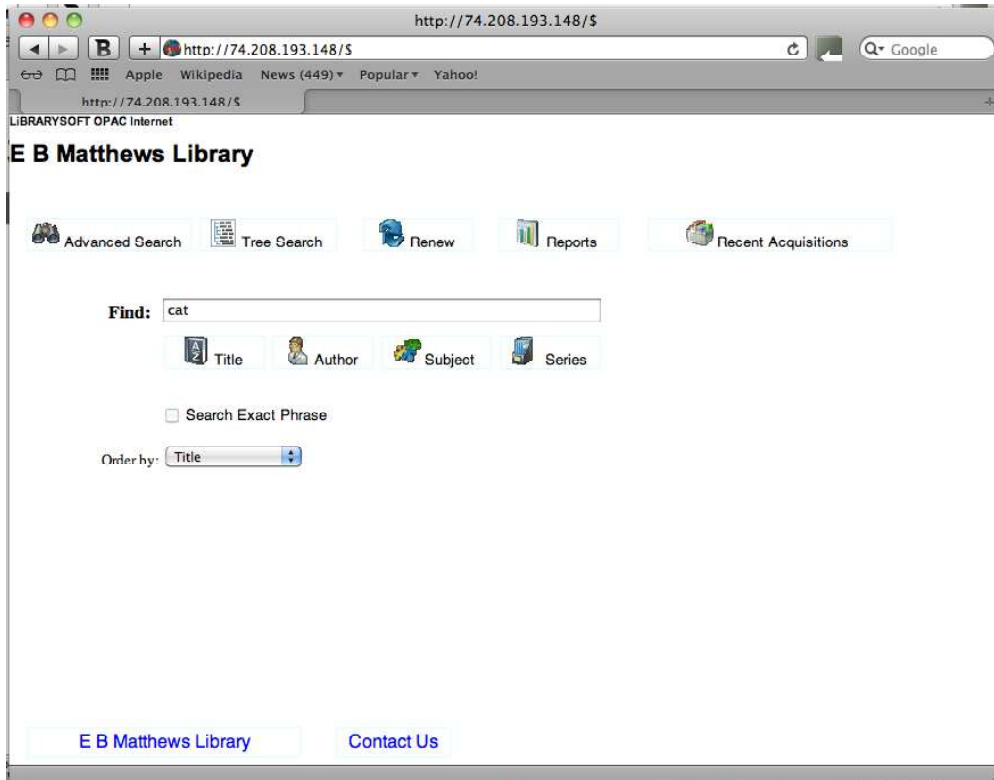

Call Number	Barcode	Author	Title	Loan Type	Location	Price
133.14 Rob	14569	Roberts, Nancy, 1924-	Animal ghost stories / collected and retold by Nancy Roberts	BOOK		14.95
185 Kat	1173R	Katz Cooper, Sharon	Aristotle : philosopher, teacher, and scientist	BOOK		0
158.1 Can	10603	Canfield, Jack [et al.] comp.	Chicken soup for the kid's soul : 101 stories of courage, hope, and laughter	BOOK		12.95
158.1	13051	Canfield, Jack, comp. [et al.]	Chicken soup for the preteen soul 2 : stories about facing challenges, realizing dreams, and ma	BOOK		0
158.1 Can	15989	Canfield, Jack, 1944- ed.	Chicken soup for the preteen soul 2 : stories about facing challenges, realizing dreams, and ma	BOOK		0
150.1 Can	13590	Canfield, Jack, comp. et al	Chicken soup for the preteen soul . 101 stories of changes, choices, and growing up for kids	BOOK		9.95
168.1 Can	10920	Canfield, Jack, comp. et al	Chicken soup for the preteen soul : 101 stories of changes, choices, and growing up for kids	BOOK		0
158.1 Can	10666	Canfield, Jack, comp. [et al.]	Chicken soup for the preteen soul : 101 stories of changes, choices, and growing up for kids a	BOOK		12.95
158.1 Can	10921	Canfield, Jack, 1944- comp.	Chicken soup for the teenage soul : 101 stories of life, love, and learning	BOOK		0
150.1 Can	10924	Canfield, Jack, 1944- comp.	Chicken soup for the teenage soul II : 101 more stories of life, love, and learning	BOOK		0

# LiBRARYSOFTWeB

The OPACInternet Module works with LiBRARYSOFTWeB to allow your patrons to search the Library.

Library Patrons can Search, Place Holds and even Renew items from across the internet.

Patrons are automatically emailed when an item they have placed on hold is returned.

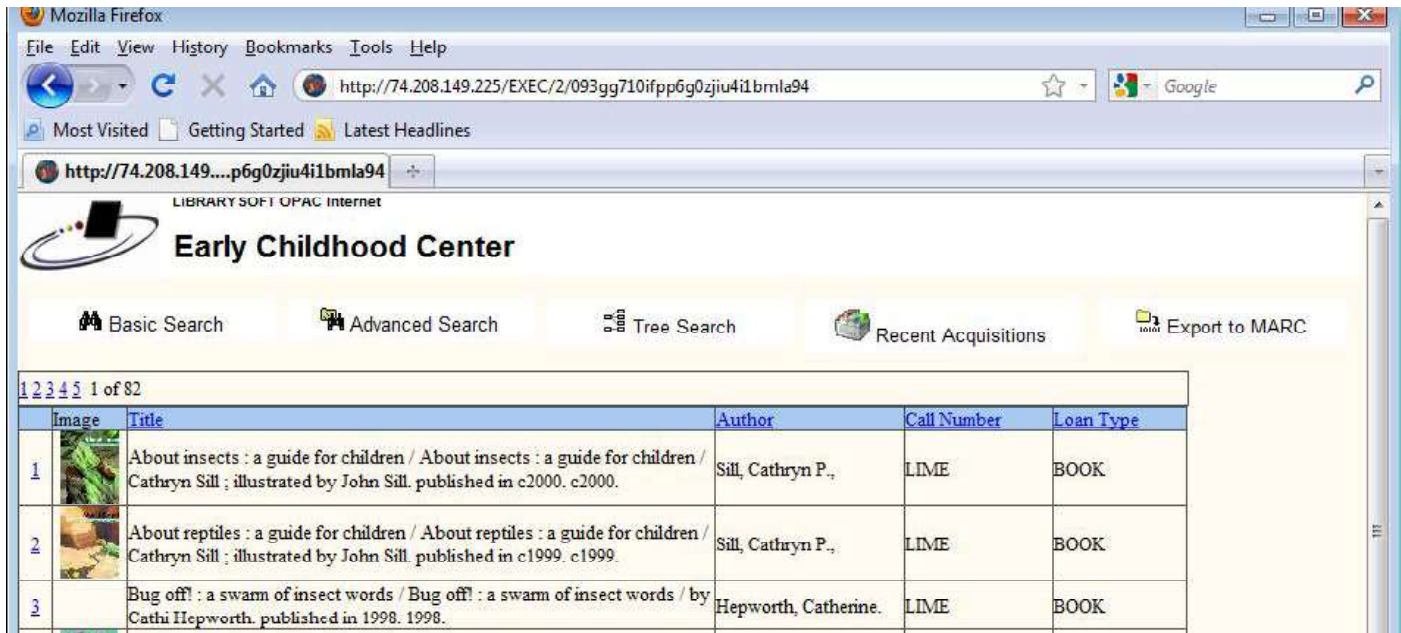

Resource Libraries can set the system to email them when a hold has been placed.

*Even perform hierarchical tree searches*

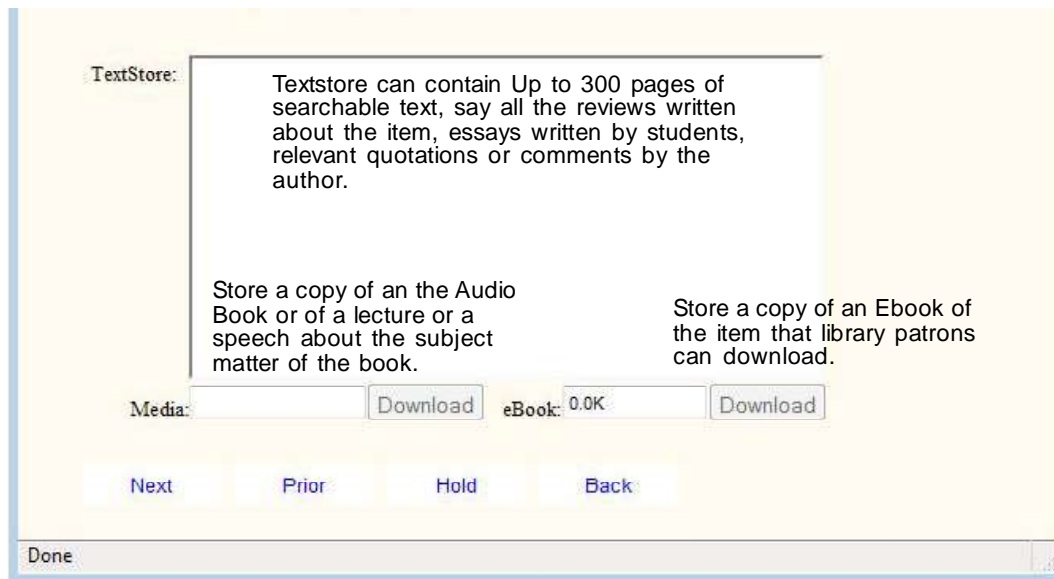

# LIBRARYSOFTWeb

The Search results can display the cover images of the items.

The amazing Textstore field stores and can display up to around 300 pages of searchable text.

*Allow patrons to download pdfs and sound files*
