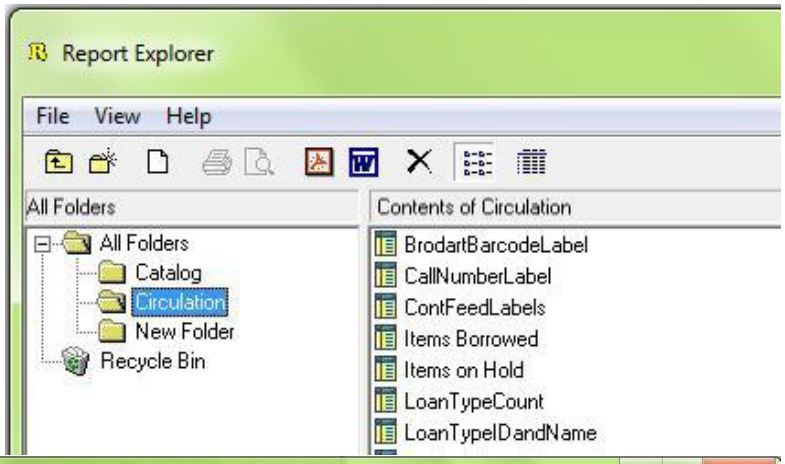
Providing control just where you need it

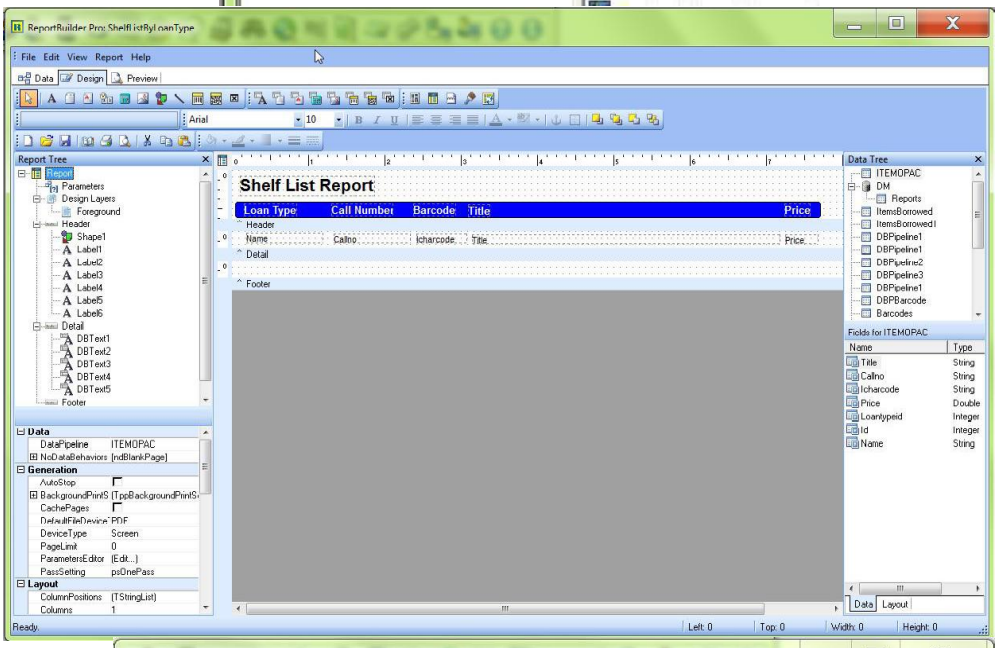
The Report Generator

LiBRARYSOFT

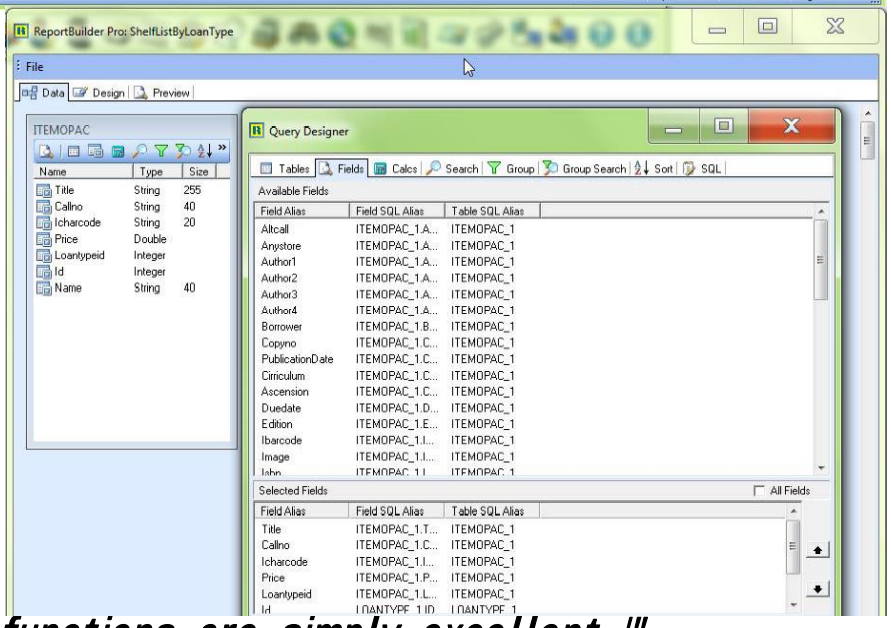
Integrated Reporting Functions in the Catalog and Circulation modules allow for the quick and efficient retrieval of information from all areas of LiBRARYSOFT. This powerful generator can be customized and will instantly provide you with the information you demand. Send reports to your printer, to a PDF file or even to a Word file.



List Patrons, Overdues or all the books acquired in the past month. Run an extensive query or a basic report. The Report Generator will fast become your new best friend.



Alter the layout...change the presentation... change the order... select for sorting... add your own conditions. LiBRARYSOFT doesn't hold you back. View the statistics that describe your library. What items are hot or not. After all isn't AUTOMATION supposed to make your life easier?



"The report generating functions are simply excellent !"
